WE KNOW YOUR BOILER

# YOUR PREFERRED PARTNER FOR BOILER REPAIR

ON LARGE TANKERS AND LNG VESSELS

Headquartered in Denmark, at the outskirts of Aalborg, Global Boiler Services builds on decades of experience and continues a long tradition of boiler making in the region; originating from the long-established shipbuilding industry which has its roots here. Further with branches and workshops in Dubai and Singapore this expertise is now available in two of the major shipping hubs of the world.

Our 'Experienced Boiler repair squads' are made up of the best engineers and welders and are available at all branches which assures less down-time, quality and flexibility in all stages of the repair and also the final documentation and reporting.

Global Boiler Services is proud to have been chosen by many leading ship owners and managers for large tanker and LNG fleets throughout the globe as the preferred partner for repairing their boilers to the highest standards and OEM quality.

The main workshop is certified by DNV-GL, Lloyds Register, RINA and ISO and is now being rolled out from BV to the branches. The own facility in Denmark undertakes tensile, bending, impact testing of materials used in boilers as well as for the certification of welders to EN/ASME standards.

Rest assured that your boiler repairs will be carried out to the highest standards and at an attractive cost — being specialists in boiler repairs, Global Boiler Services will remain focused in our chosen field and will continue to develop the business with minimum overheads as compared to multi-segmented companies thereby benefiting you with world-class work at competitive costs.

#### **BOILER MAKES THAT WE SPECIALIZE IN:**

- Kawasaki
- Mitsubishi
- Kangrim
- Aalborg / Alfa Laval
- Foster Wheeler
- Hitachi
- Hyundai

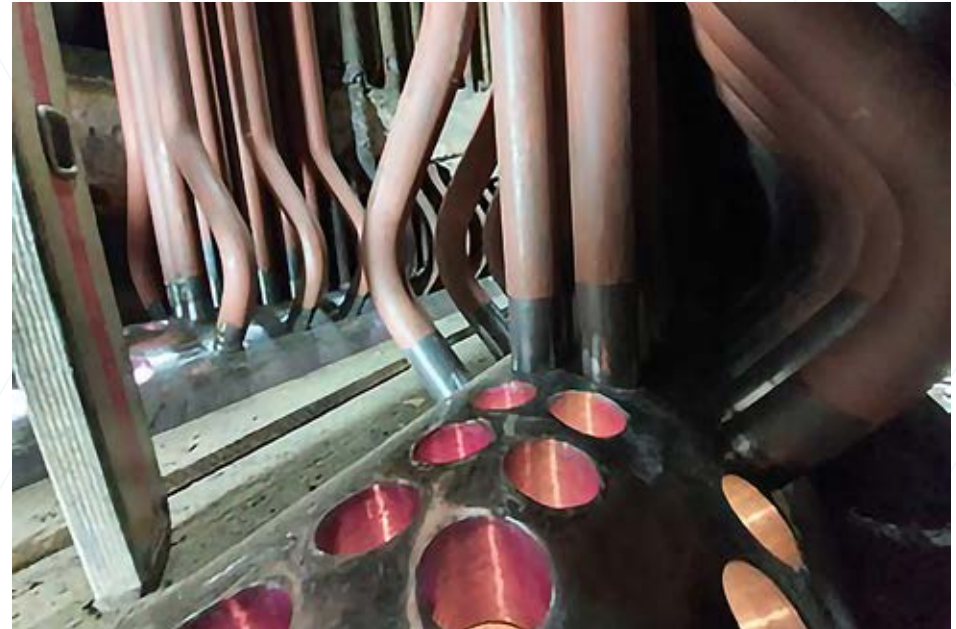

# EXPERIENCED BOILER REPAIR SQUADS

Since Global Boiler Services was established in early 2011, more than 1000 plus boiler repairs have been carried out worldwide. Close to 100 of these being on large oil tankers and LNG steam operated vessels. In an ever changing market for ship repair, Global Boiler has been chosen by a many leading ship owners and managers as their preferred partner for high class and OEM quality boiler repairs approved by class.

Global Boiler Services' 'Experienced Boiler repair squads' are comprised of expert engineers and welders, and are available at all branches which assures less down-time, quality and flexibility in all stages of the repair and also the final documentation and reporting.
